

Zire™ 31

Affordable color. Another bright idea.

Not only fits your busy life. But also your budget.

Life is best seen in color. Take the Zire™ 31 handheld from palmOne, for example. With its bright, colorful screen, it turns your busy schedule into a dazzling display. All, we might add, at a price within your budget. Keep your schedule, look up phone numbers, store photos of family and friends, even play MP3s¹ or a game.

See things clearly on a color screen.

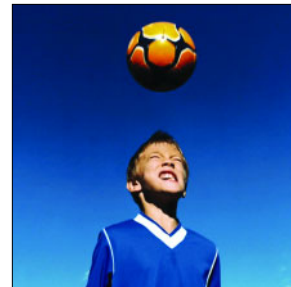

A display that's bright, colorful, and easy to read is exactly what you'll find with the Zire 31 handheld. Whether you're at home, at work or at school, you can organize your day, view photos and even play a game, seeing all of it the way it was meant to be.

Be as organized as you want to be.

palmOne is always looking for ways to improve your life on the go. That's why an Agenda view lets you stay ahead of your day, and the ability to attach a photo to a contact means you can always put a face with a name. Your Zire 31 handheld synchronizes with Outlook and offers color-coded categories so you can track your schedule and those of your family, work, school and more.

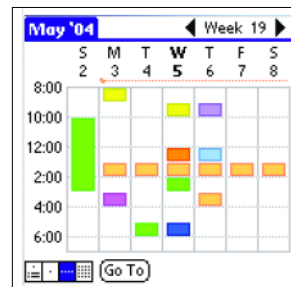

Play MP3s¹.

Carry your tunes with you wherever you go, and listen to them using the speaker or add stereo headphones¹. The Zire 31 handheld won't slow you down, either. You can play MP3s while you're scheduling appointments, adding contacts, or just enjoying a spare moment. With the Zire 31 handheld, your life just sounds better.

Photos

Carry your favorite photos with you and share them with family and friends.

Calendar

Color-code your day, week and month schedule for quick, at-a-glance appointment recognition.

¹ Expansion card required, stereo headphones optional, both sold separately.
